G225, 2-Way, Globe Valve, Bronze Trim

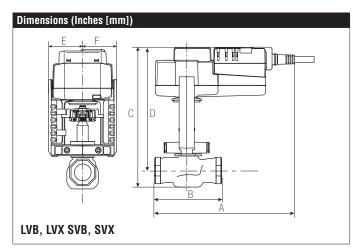

ApplicationThis valve is typically used in Air handling units on heating or cooling coils, and fan coil unit heating or cooling coils. Some other common applications include Unit Ventilators, VAV box re-heat coils and bypass loops. This valve is suitable for use in hydronic system with variable flow. Bronze and stainless steel trim valves can be used for steam applications, depending on actuator and close-off combinations.

Piping

The valves should be mounted in a weather-protected area in a location that is within the ambient limits of the actuator. Allow sufficient room for valve with actuator and for service. The G2(S) and G3(D) preferred mounting position of the valve is with the valve stem vertical above the valve body, for maximum life. However, the assemblies can be mounted with the valve stem vertical or horizontal in relation to the pipe. The actuators should never be mounted underneath the valve, as condensation can build up and result in a failure of the actuators. Do not reverse flow direction.

NFX24-MFT-X1

Modulating, Spring Return, 24 V, Multi-Function Technology®

Technical Data			
Power Supply	24 VAC±20%, 50/60Hz, 24 VDC+20%/-10%		
Power Consumption Running	6.5 W		
Power Consumption Holding	3 W		
Transformer Sizing	9 VA (class 2 power source)		
Shaft Diameter	1/2" to 1.05" round, centers on 1/2" and 3/4"		
	with insert, 1.05" without insert		
Electrical Connection	18 GA applicance rated cable with 1/2"		
	conduit connector protected NEMA 2 (IP54) 3 ft [1m] 10 ft [3m] and 16 ft [5m]		
Overload Protection	electronic throughout 0° to 95° rotation		
Operating Range	2 to 10 VDC, 4 to 20 mA (default), variable		
oporating rango	(VDC, PWM, floating point, on/off)		
Position Feedback	2 to 10 VDC, 0.5 mA max, VDC variable		
Angle of Rotation	95° (adjustable with mechanical end stop,		
	35° to 95°)		
Torque	90 in-lbs [10 Nm] minimum		
Direction of Rotation (Motor)	reversible with built-in switch		
Direction of Rotation (Fail-Safe)	reversible with CW/CCW mounting		
Position Indication	visual indicator, 0° to 95° (0° is full spring		
	return position)		
Manual Override	5 mm hex crank (3/16" Allen), supplied		
Running Time (Motor)	90 sec, constant independent of load		
Running Time (Fail-Safe)	<20 sec @ -4°F to 122°F [-20°C to 50°C], <		
0	60 sec @ -22°F [-30°C]		
Override Control	min. position = 0%, mid. Position = 50%, max. position = 100% (Default)		
Humidity	max. 95% RH non-condensing		
Ambient Temperature Range	-22°F to 122°F [-30°C to 50°C]		
Storage Temperature Range	-40°F to 176°F [-40°C to 80°C]		
Housing	NEMA 2, IP54, UL enclosure type 2		
Housing Material	zinc coated metal and plastic casing		
Agency Listings†	cULus acc. to UL60730-1A/-2-14, CAN/CSA		
Agency Listings†	E60730-1:02, CE acc. to 2004/108/EC and		
	2006/95/EC		
Sound power level	<50 dB (A)		
Noise Level (Fail-Safe)	<62 dB (A)		
Servicing	maintenance free		
Quality Standard	ISO 9001		
Weight	4.4 lb [2 kg]

*Variable when configured with MFT options. †Rated Impulse Voltage 800V, Type of action 1.AA, Control Pollution Degree 3

Modulating, Spring Return, 24 V, Multi-Function Technology®

Wiring Diagrams

🔀 INSTALLATION NOTES

Actuators with appliance cables are numbered.

Provide overload protection and disconnect as required.

Actuators may also be powered by 24 VDC.

Only connect common to negative (-) leg of control circuits.

A 500 Ω resistor (ZG-R01) converts the 4 to 20 mA control signal to 2 to 10 VDC.

Control signal may be pulsed from either the Hot (Source) or Common (Sink) 24 VAC line.

For triac sink the Common connection from the actuator must be connected to the Hot connection of the controller. Position feedback cannot be used with a triac sink controller; the actuator internal common reference is not compatible.

Actuators may be connected in parallel if not mechanically linked. Power consumption and input impedance must be observed.

IN4004 or IN4007 diode. (IN4007 supplied. Belimo part number 40155).

APPLICATION NOTES

Meets cULus requirements without the need of an electrical ground connection.

WARNING! LIVE ELECTRICAL COMPONENTS!

During installation, testing, servicing and troubleshooting of this product, it may be necessary to work with live electrical components. Have a qualified licensed electrician or other individual who has been properly trained in handling live electrical components perform these tasks. Failure to follow all electrical safety precautions when exposed to live electrical components could result in death or serious injury.
