

# G320D, 3-Way, Globe Valve, Bronze Trim, Diverting

### Technical Data

|                                   |                                       |
|-----------------------------------|---------------------------------------|
| Service                           | chilled, hot water, up to 60% glycol  |
| Flow Characteristic               | linear                                |
| Controllable Flow Range           | stem up - open B to AB                |
| Size [mm]                         | 0.75" [20]                            |
| End Fitting                       | NPT female ends                       |
| Body                              | bronze                                |
| Stem                              | stainless steel                       |
| Stem Packing                      | spring loaded Teflon® V-ring          |
| Seat                              | bronze                                |
| Plug                              | brass                                 |
| Disc                              | composition (EPDM)                    |
| Body Pressure Rating [psi]        | ANSI 250                              |
| ANSI Class                        | ANSI 250 ( up to 400 psi below 150°F) |
| Media Temperature Range (Water)   | 20°F to 280°F [-7°C to 138°C]         |
| Max Differential Pressure (Water) | 35 psi (241 kPa)                      |
| Rangeability                      | 500:1                                 |
| Cv                                | 7.5                                   |
| Weight                            | 2.2 lb [1 kg]                         |
| Leakage                           | ANSI Class III                        |
| Servicing                         | Repack/Rebuild kits available         |

### Flow Pattern

### Application

This valve is typically used in Air handling units on heating or cooling coils, and fan coil unit heating or cooling coils. Some other common applications include Unit Ventilators, VAV box re-heat coils and bypass loops. This valve is suitable for use in hydronic system with constant or variable flow. 3-way valves are available with mixing or diverting flow patterns.

### Suitable Actuators

|       | Non-Spring | Spring | Electronic Fail-Safe |
|-------|------------|--------|----------------------|
| G320D | LVB(X)     | LF     | LVKB(X)              |

### Dimensions (Inches [mm])

LVB, LVX SVB, SVX

| A          | B          | C           | D           | E          | F |
|------------|------------|-------------|-------------|------------|---|
| 7.8" [200] | 3.62" [92] | 9.45" [240] | 8.11" [206] | 1.95" [49] |   |

### Piping

The valves should be mounted in a weather-protected area in a location that is within the ambient limits of the actuator. Allow sufficient room for valve with actuator and for service. The G2(S) and G3(D) preferred mounting position of the valve is with the valve stem vertical above the valve body, for maximum life. However, the assemblies can be mounted with the valve stem vertical or horizontal in relation to the pipe. The actuators should never be mounted underneath the valve, as condensation can build up and result in a failure of the actuators. Do not reverse flow direction.

## G320D, 3-Way, Globe Valve, Bronze Trim, Diverting

| A        | B          | C           | D           | E          | F |
|----------|------------|-------------|-------------|------------|---|
| 9" [229] | 3.62" [92] | 10.3" [262] | 8.11" [206] | 1.95" [49] |   |

| A          | B          | C          | D          | E          | F        |
|------------|------------|------------|------------|------------|----------|
| 8.3" [211] | 3.62" [92] | 9.4" [239] | 9.1" [231] | 1.25" [32] | 5" [127] |

# LF24-S US, Valve Actuator

On/Off, Spring Return, 24 VAC/DC

| Technical Data                    |  |
|-----------------------------------|--|
| Power Supply                      | 24 VAC ± 20%, 50/60 Hz, 24 VDC ± 10%   |
| Power Consumption Running         | 5 W  |
| Power Consumption Holding         | 2.5 W  |
| Transformer Sizing                | 7 VA (class 2 power source)  |
| Electrical Connection             | (2) 3 ft [1 m], 18 GA appliance cables with 1/2" conduit connectors                        |
| Overload Protection               | electronic throughout 0° to 95° rotation   |
| Operating Range Y                 | on/off   |
| Angle of Rotation                 | 90°  |
| Direction of Rotation (Motor)     | reversible with built-in switch  |
| Direction of Rotation (Fail-Safe) | reversible with CW/CCW mounting  |
| Position Indication               | visual indicator, 0° to 95° (0° is full spring return position)                            |
| Running Time (Motor)              | <40 to 75 sec  |
| Running Time (Fail-Safe)          | <25 sec @ -4°F to 122°F [-20°C to 50°C], < 60 sec @ -22°F [-30°C]                          |
| Ambient Temperature Range         | -22°F to +122°F [-30°C to +50°C]   |
| Storage Temperature Range         | -40°F to +176°F [-40°C TO +80°C]   |
| Housing                           | NEMA 2, IP54   |
| Agency Listings†                  | cULus acc. To UL 873 and CAN/CSA C22.2 No. 24-93   |
| Noise Level (Motor)               | <50 dB (A)   |
| Noise Level (Fail-Safe)           | <62 dB (A)   |
| Servicing                         | maintenance free   |
| Quality Standard                  | ISO 9001   |
| Auxiliary Switch                  | 1 x SPDT, 3A resistive (0.5A inductive) @ 250 VAC, adjustable 0° to 95° (double insulated) |

†Rated Impulse Voltage 800V, Type of action 1.AA, Control Pollution Degree 3

**Wiring Diagrams**

**✂ INSTALLATION NOTES**

- Actuators with appliance cables are numbered.
- Provide overload protection and disconnect as required.
- Actuators may also be powered by 24 VDC.
- Actuators may be connected in parallel if not mechanically linked. Power consumption and input impedance must be observed.
- One built-in auxiliary switch (1x SPDT), for end position indication, interlock control, fan startup, etc.
- Apply only AC line voltage or only UL-Class 2 voltage to the terminals of auxiliary switches. Mixed or combined operation of line voltage/safety extra low voltage is not allowed.
- Meets cULus requirements without the need of an electrical ground connection.

**WARNING! LIVE ELECTRICAL COMPONENTS!**  
 During installation, testing, servicing and troubleshooting of this product, it may be necessary to work with live electrical components. Have a qualified licensed electrician or other individual who has been properly trained in handling live electrical components perform these tasks. Failure to follow all electrical safety precautions when exposed to live electrical components could result in death or serious injury.
