

0	
Service	chilled or hot water, up to 60% glycol max
Flow Characteristic	(open loop/steam not allowed)
	equal percentage or linear
Size [mm]	0.5" [15]
End Fitting	NPT female ends
Body	forged brass, nickel plated
Sensor Housing	forged brass, nickel plated
Ball	stainless steel
Stem	stainless steel
Seat	Teflon® PTFE
Seat O-ring	EPDM
Characterized Disc	TEFZEL® or stainless steel
Body Pressure Rating [psi]	360
Media Temperature Range	14°F to 250°F [-10°C to 120°C]
(Water)	
Differential Pressure Range	5 to 50 psid, 1 to 50 psid (with flow
	reduction. See chart.), or 8 to 50 psid (with
	flow increase. See chart.)
Close-Off Pressure	200 psi
Inlet Length to Meet Specified	5X nominal pipe size (NPS)
Measurement Accuracy Ambient Humidity	<95% RH non-condensing
Flow Measurement Tolerance	<95% RH 11011-condensing +2%*
Flow Control Tolerance	±5%
Flow Measurement Repeatability	±0.5%
Sensor Technology	ultrasonic with glycol and temperature compensation
Rangeability	100:1
Power Supply for the Flow Sensor	sensor is powered by the actuator
Weight	3.3 lb [1.5 kg]
GPM	1.65
GPIN	1.00

Application

Water-side control of heating and cooling systems for AHUs and water coils. Equal Percentage/ Linear: heating and cooling applications.

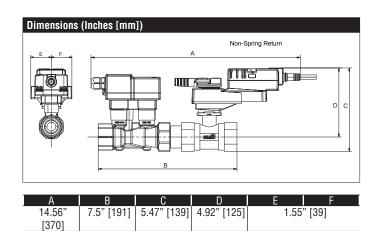

Operation

The Electronic Pressure Independent Control Valve is a two-way valve that maintains constant flow regardless of pressure variations in the system.

Product Features

Provides constant flow regardless of pressure variations in the system. Maximizes chiller P, preventing energizing additional chillers due to low T. Simplified valve sizing and selection, no Cv calculations required.

Suitable Actuators			
	Non-Spring	Electronic Fail-Safe	
P2050S-165	LR	AKRX	

*All flow tolerances are at 68°F (20°C) & water.

🔀 INSTALLATION NOTES

Provide overload protection and disconnect as required.

Actuators may be connected in parallel. Power consumption and input impedance must be observed.

Actuators may also be powered by 24 VDC.

Actuators are provided with color coded wires. Wire numbers are provided for reference.

Actuators are provided with a numbered screw terminal strip instead of a cable.

IN4004 or IN4007 diode required

Meets cULus requirements without the need of an electrical ground connection.

WARNING! LIVE ELECTRICAL COMPONENTS!

During installation, testing, servicing and troubleshooting of this product, it may be necessary to work with live electrical components. Have a qualified licensed electrician or other individual who has been properly trained in handling live electrical components perform these tasks. Failure to follow all electrical safety precautions when exposed to live electrical components could result in death or serious injury.
