

NEMA 4, Modulating, Spring Return, 24 V, for DC 2...10 V or 4...20 mA Control Signal

# Technical data sheet

# EFX24-SR-S N4H

### **Technical data**

Electrical data	Nominal voltage	AC/DC 24 V
	Nominal voltage frequency	50/60 Hz
	Power consumption in operation	8 W
	Power consumption in rest position	4.5 W
	Transformer sizing	14 VA (class 2 power source) / heater 21 VA
	Power consumption heating	21 W
	Auxiliary switch	2 x SPDT, 3 A resistive (0.5 A inductive) @ AC 250 V, one set at 10°, one set at 85°
	Switching capacity auxiliary switch	3 A resistive (0.5 A inductive) @ AC 250 V
	Electrical Connection	Terminal block(s) inside junction box with knockouts
	Overload Protection	electronic throughout 095° rotation
	Electrical Protection	actuators are double insulated
Functional data	Torque motor	270 in-lb [30 Nm]
	Operating range Y	210 V
	Operating range Y note	420 mA w/ ZG-R01 (500 Ω, 1/4 W resistor)
	Input Impedance	100 k $\Omega$ for 210 V (0.1 mA), 500 $\Omega$ for 420 mA
	Position feedback U	210 V
	Position feedback U note	Max. 0.5 mA
	Direction of motion motor	selectable with switch 0/1
	Direction of motion fail-safe	reversible with cw/ccw mounting
	Manual override	5 mm hex crank (3/16" Allen), supplied
	Angle of rotation	Max. 95°
	Angle of rotation note	adjustable with mechanical end stop, 3595°
	Running Time (Motor)	95 s / 90°
	Running time fail-safe	<20 s @ -22122°F [-3050°C], <60 s @ -40°F [-40°C]
	Angle of rotation adaptation	manual, by two full cycles of 0/1 switch
	Noise level, motor	56 dB(A)
	Noise level, fail-safe	71 dB(A)
	Shaft Diameter	1/21.05" round, centers on 3/4" with insert, 1.05" without insert
	Position indication	Mechanical
Safety data	Degree of protection IEC/EN	IP66
	Degree of protection NEMA/UL	NEMA 4
	Enclosure	UL Enclosure Type 4
	Agency Listing	cULus acc. to UL60730-1A/-2-14, CAN/CSA E60730-1:02, CE acc. to 2014/30/EU and 2014/35/EU
	Quality Standard	ISO 9001

DELINIQ		
Safety data	Ambient temperature	-40122°F [-4050°C]
	Ambient temperature note	-4050°C for actuator with integrated heating
	Storage temperature	-40176°F [-4080°C]
	Ambient humidity	Max. 100% RH
	Servicing	maintenance-free
Weight	Weight	12 lb [5.3 kg]
Materials	Housing material	Die cast aluminium and plastic casing
Footnotes	<ul> <li>†Rated Impulse Voltage 800V, Type of action 1.AA.B, Control Pollution Degree 4.</li> <li>^Heater must remain powered at all times to ensure proper actuator operation at colder</li> </ul>	
	temperatures.	nes to ensure proper actuator operation at colder
Product features		
Application	For fail-safe, modulating control of dampers in HVAC systems. Actuator sizing should be done in accordance with the damper manufacturer's specifications. The actuator is mounted directly to a damper shaft up to 1.05" in diameter by means of its universal clamp. A crank arm and several mounting brackets are available for applications where the actuator cannot be direct coupled to the damper shaft. The actuator operates in response to a DC 210 Vor, with the addition of a 500 $\Omega$ resistor, a 420 mA control input from an electronic controller or positioner. A DC 210 V feedback signal is provided for position indication.	
	feedback of one actuator (Master) to co	ontrol of multi-section dampers is to use the U5 position ontrol multiple actuators (Slaves). Belimo refers to this as ment is that the actuators are installed on fts.
Operation	application and positive close off on air constant torque to the damper with, an N4 series provides 95° of rotation and i 0° to 95°. The EF24-SR-S N4 uses a bru Specific Integrated Circuit (ASIC) and a intelligence to the ASIC to provide a cor safe position. The ASIC monitors and co digital rotation sensing function to prev actuator may be stalled anywhere in its switches. The EF24-SR-S N4 versions a SPDT switches provide safety interfacin switching function at the fail-safe positi 85°. The EF24-SR-S N4 actuator is ship compression against damper gaskets for	-
	stranded or solid. If conduit is used, use	er (CU) conductor and wire size range 12-26 AWG, e flexible metal conduit; UL listed and CSA certified strain door applications, rated NEMA type 4, 4X, 6 or 6X or
Typical specification	and linkage and be capable of direct m actuator must provide modulating dam addition of a $500\Omega$ resistor, a 4 to 20 m positioner. The actuators must be desig counter clockwise fail-safe operation. A microprocessor and be protected from constant, and independent of torque. A position feedback. Actuators with auxili requirements for Double Insulation so listings. Actuators shall be cULus listed	s shall be direct coupled type which require no crank arm ounting to a jackshaft up to a 1.05" diameter. The oper control in response to a 2 to 10 VDC or, with the A control input from an electronic controller or gned so that they may be used for either clockwise or actuators shall use a brushless DC motor controlled by a overload at all angles of rotation. Run time shall be A 2 to 10 VDC feedback signal shall be provided for iary switches must be constructed to meet the an electrical ground is not required to meet agency and have a 5 year warranty, and be manufactured under Standards. Actuators shall be as manufactured by

Adaptation and synchronisation

An adaption can be triggered by manually rotating the direction of rotation switch TWO full cycles. Adaption will detect the applications mechanical end stops by driving to each stop. An adaption will scale the control signal input, position feedback voltage, and running time to the new working mechanical angle of rotation. It is good practice to initiate an adaption on each actuator when mounting and controlling EF..-SR.. actuators in Piggy-back mode.

If the manual override is used, with power applied, the actuator will perform a Synchronization upon release of the manual override hand crank. The actuator drives from the current control position to the synchronize reference of 0%. The actuator then drives back to the control position defined by the input signal.

#### Accessories

Electrical accessories	Description	Туре
	DC Voltage Input Rescaling Module	IRM-100
	Auxiliary switch, mercury-free	P475
	Auxiliary switch, mercury-free	P475-1
	Signal simulator, Power supply AC 120 V	PS-100
	Convert Pulse Width Modulated Signal to a 210 V Signal for Belimo	PTA-250
	Proportional Actuators	
	Positioner for wall mounting	SGA24
	Positioner for front-panel mounting	SGF24
	Resistor, 500 $\Omega$ , 1/4" wire resistor with 6" pigtail wires	ZG-R01
	Resistor kit, 50% voltage divider	ZG-R02
	Transformer, AC 120 V to AC 24 V, 40 VA	ZG-X40
Mechanical accessories	Description	Туре
	Shaft extension 240 mm Ø20 mm for damper shaft Ø 822.7 mm	AV8-25
	Anti-rotation bracket EFB(X)/GKB(X)/GMB(X).	EF-P
	End stop indicator	IND-EFB
	Shaft clamp reversible, clamping range Ø1226.7 mm	K9-2
	Ball joint suitable for damper crank arm KH8 / KH10, Multipack 10 pcs.	KG10A
	Damper crank arm Slot width 8.2 mm, clamping range Ø1425 mm	KH10
	Actuator arm Slot width 8.2 mm	KH-EFB
	Push rod for KG10A ball joint 36" L, 3/8" diameter	SH10
	Wrench 0.512 in. [13 mm]	TOOL-07
	17" Mounting Bracket for AF,NF,GM,AM,SM	ZG-100
	Jackshaft mounting bracket.	ZG-120
	Damper clip for damper blade, 3.5" width.	ZG-DC1
	Damper clip for damper blade, 6" width.	ZG-DC2
	Mounting kit for linkage operation for flat and side installation	ZG-EFB
	1.05" diameter jackshaft adaptor (12" L).	ZG-JSA-3

#### **Electrical installation**

### Marning! Live electrical components!

During installation, testing, servicing and troubleshooting of this product, it may be necessary to work with live electrical components. Have a qualified licensed electrician or other individual who has been properly trained in handling live electrical components perform these tasks. Failure to follow all electrical safety precautions when exposed to live electrical components could result in death or serious injury.

Apply only AC line voltage or only UL-Class 2 voltage to the terminals of auxiliary switches. Mixed or combined operation of line voltage/safety extra low voltage is not allowed.

Actuators may also be powered by DC 24 V.

Two built-in auxiliary switches (2x SPDT), for end position indication, interlock control, fan startup, etc.

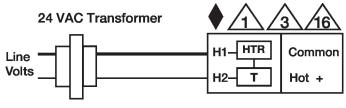

🔂 Only connect common to negative (-) leg of control circuits.

Actuators may be connected in parallel if not mechanically linked. Power consumption and input impedance must be observed.

 $\int_{16}^{16}$  Actuators are provided with a numbered screw terminal strip instead of a cable.
