

Modulating, Electrical Fail-Safe, 24...240 V, NEMA 4X with BACnet

Technical data sheet

Technical data

-				
	lectr	ıra	~ :	212

Nominal voltage	AC 24240 V / DC 24125 V
Nominal voltage frequency	50/60 Hz
Power consumption in operation	52 W
Power consumption in rest position	9 W
Transformer sizing	55 VA @ AC/DC 24 V (class 2 power source), 43 VA @ AC/DC 120 V, 68 VA @ AC 230 V
Auxiliary switch	2 x SPDT, 3 A resistive (0.5 A inductive) @ AC 250 V, 1 x 10° / 1 x 090° (default setting 85°)
Switching capacity auxiliary switch	3 A resistive (0.5 A inductive) @ AC 250 V
Electrical Connection	Terminal blocks, (PE) Ground-Screw
Overload Protection	electronic thoughout 090° rotation
Communicative control	BACnet MS/TP Modbus RTU

Functional data

Liectifical Confidention	Terrifical blocks, (FL) dround-screw	
Overload Protection	electronic thoughout 090° rotation	
Communicative control	BACnet MS/TP Modbus RTU MP-Bus	
Operating range Y	210 V	
Operating range Y note	420 mA	
Input Impedance	100 k Ω for 210 V (0.1 mA), 500 Ω for 420 mA, 1500 Ω for On/Off	
Operating range Y variable	Start point 0.530 V End point 2.532 V	
Options positioning signal	variable (VDC, on/off, floating point)	
Position feedback U	210 V	
Position feedback U note	Max. 0.5 mA	
Position feedback U variable	VDC variable	
Setting Fail-Safe Position	0100%, adjustable with Belimo Assistant App (default setting 0%)	
Bridging time (PF)	2 s	
Bridging time (PF) variable	010 s	
Pre-charging time	520 s	
Direction of motion motor	reversible with app	
Direction of motion fail-safe	reversible with app	
Manual override	7 mm hex crank, supplied	
Angle of rotation	90°	
Running Time (Motor)	35 s / 90°	
Running time motor variable	30120 s	
Running time fail-safe	<30 s	
Noise level, motor	68 dB(A)	
Noise level, fail-safe	62 dB(A)	
Position indication	top mounted domed indicator	
Passive sensor inputs	2x (Pt1000, Ni1000, NTC10k2)	

Technical data sheet	PKRXUP-MFT-T
Technical data Sheet	PRRAUP-IVIFI-I

Safety data

Weight

Materials

Degree of protection IEC/EN	IP66/67
Degree of protection NEMA/UL	NEMA 4X
Enclosure	UL Enclosure Type 4X
Agency Listing	cULus acc. to UL60730-1A/-2-14, CAN/CSA E60730-1:02, CE acc. to 2014/30/EU and 2014/35/EU
Quality Standard	ISO 9001
Ambient temperature	-22122°F [-3050°C]
Ambient humidity	Max. 100% RH
Servicing	maintenance-free
Weight	14.0 lb [6.4 kg]
Housing material	Die cast aluminium and plastic casing

Product features

Default/Configuration

Default parameters for DC 2...10 V applications of the PKR..-MFT actuator are assigned during manufacturing. If required, different parameters of the actuator can be ordered. These parameters are variable and can be modified by factory pre-set, the handheld ZTH US or using the Belimo App on a smart phone with Near Field Communications (NFC) programming.

Application

PR Series valve actuators are designed with an integrated linkage and visual position indicators. For outdoor applications, the installed valve must be mounted with the actuator at or above horizontal. For indoor applications the actuator can be in any location including directly under the valve.

Operation

The PR series actuator provides 90° of rotation and a visual indicator shows the position of the valve. The PR Series actuator uses a low power consumption brushless DC motor and is electronically protected against overload. A universal power supply is furnished to connect supply voltage in the range of AC 24...240 V and DC 24...125 V. Included is a smart heater with thermostat to eliminate condensation. Two auxiliary switches are provided; one set at 10° open and the other is field adjustable. Running time is field adjustable from 30...120 seconds by using the Near Field Communication (NFC) app and a smart phone.

†Use 60°C/75°C copper wire size range 12...28 AWG, stranded or solid. Use flexible metal conduit. Push the listed conduit fitting device over the actuator's cable to butt against the enclosure. Screw in conduit connector. Jacket the actuators input wiring with listed flexible conduit. Properly terminate the conduit in a suitable junction box. Rated impulse Voltage 4000 V. Type of action 1. Control pollution degree 3.

Bridging time

Electrical interruptions can be bridged up to a maximum of 10 s.

In the event of a power failure, the actuator will remain stationary in accordance with the set bridging time. If the power failure is greater than the set bridging time, then the actuator will move into the selected fail-safe position.

The bridging time set ex-works is 2 s. This can be modified on site in operation with the use of the Belimo service tool MFT-P.

Settings: The rotary knob must not be set to the "PROG FAIL-SAFE" position!

For retroactive adjustments of the bridging time with the Belimo service tool MFT-P or with the ZTH EU adjustment and diagnostic device only the values need to be entered.

Factory settings

Default parameters for DC 2...10 V applications of the PKR..-MFT actuator are assigned during manufacturing. If required, different parameters of the actuator can be ordered. These parameters are variable and can be modified by factory pre-set, the handheld ZTH US or using the Belimo App on a smart phone with Near Field Communications (NFC) programming.

Accessories

Electrical installation

Meets cULus requirements without the need of an electrical ground connection.

UP Universal Power Supply (UP) models can be supplied with 24 V up to 240 V.

Disconnect power.

Two built-in auxiliary switches (2x SPDT), for end position indication, interlock control, fan startup, etc.

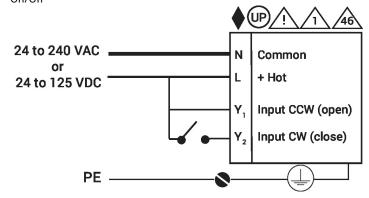

6 Only connect common to negative (-) leg of control circuits.

Actuators may be controlled in parallel. Current draw and input impedance must be observed.

Warning! Live electrical components!

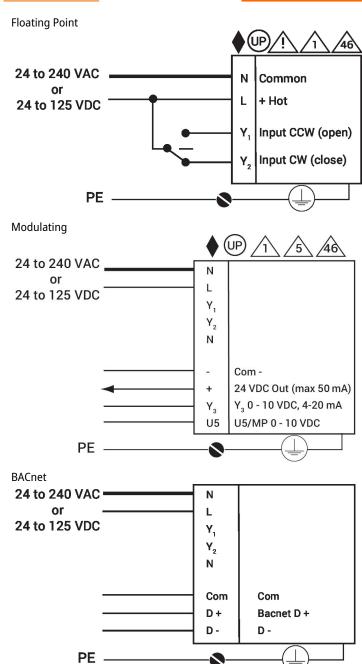

During installation, testing, servicing and troubleshooting of this product, it may be necessary to work with live electrical components. Have a qualified licensed electrician or other individual who has been properly trained in handling live electrical components perform these tasks. Failure to follow all electrical safety precautions when exposed to live electrical components could result in death or serious injury.
