# Suitable actuators

## Product features

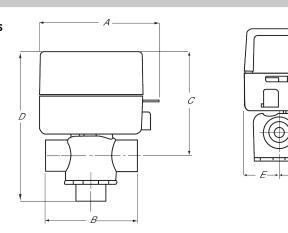

### **Application**

This valve is typically used on fan coil units, baseboards or other hydronic applications where fail safe operation on 2-wire control is required. This valve is suitable for use in a hydronic system with variable or constant flow.

This valve is designed to fit in compact areas where on/off or control is required using 24 VAC or 120 VAC.

#### **Electrical installation**

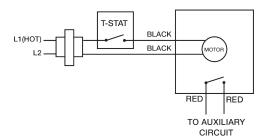

Weight

Weight

Meets cULus requirements without the need of an electrical ground connection.

One built-in auxiliary switch, 1x SPST 0.4A @ 24 VAC (resistive and inductive loads).

0.88 lb [0.40 kg]

Built-in Auxiliary Switch (optional) (only on -S models)
