

H-3610

Duct Mounted Humidity Controller

Description

The H-3610 is a reverse acting pneumatic instrument that can be used as a humidity controller or high limit. The H-3610 comes in one of two factory settings, depending on the application. For controller applications the H-3610 is factory set at 35% RH. For use as a high limit the H-3610 is factory set at 85% RH. The setpoint is field adjustable.

Features

- adjustable setpoint and sensitivity
- provided with an integral hypodermic needle test point for easy calibration
- mounts vertically
