# NetBotz® Vibration Sensor (NBES0306) Installation Instructions
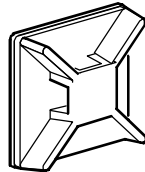

Inventory

Vibration sensor with 3.65-m (12-ft) cable (1)
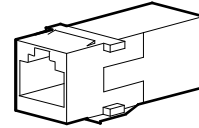

22-mm (7/8-in) hook and loop fastener (1)

203-mm (8-in) tie wrap (10)

Adhesive cable tie holder (5)

RJ-45 coupling (1)

Installation

⚠ **Caution:** Make sure you connect this sensor to a **Sensor** port on applicable NetBotz products. See your NetBotz product documentation for details.

🛈 **Note:** The typical location for the vibration sensor is on a main support in the top half of the enclosure. Avoid installing the sensor near a cooling unit, which could cause the sensor to give false alarms.

🛈 **Note:** You can extend the length of the sensor cable up to 30.5 m (100 ft) using the RJ-45 coupling and standard CAT-5 cabling.
