

NEMA 4 Enclosure for E5x Series Meters

Help Protect E5x Meter From the Elements with a Weather-Resistant Housing

AE010

DESCRIPTION

AE010 enclosure offers a mounting option for E5x Series energy meters with NEMA 4 level protection from the elements. The enclosure is equipped with DIN rail mounting hardware for convenient installation.

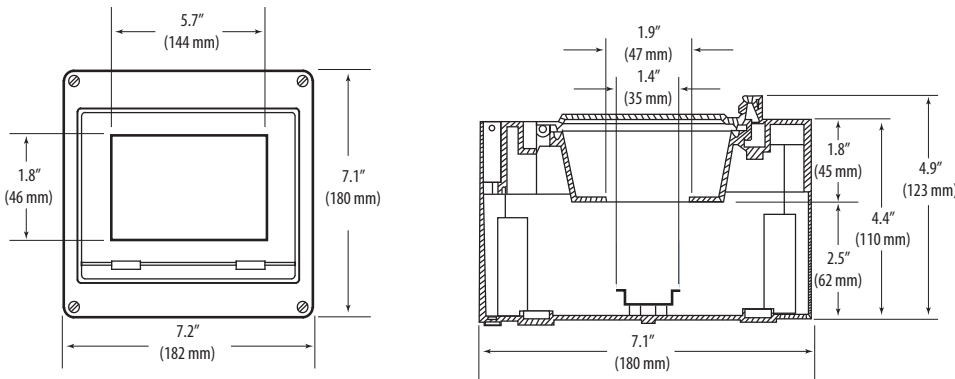

AE011 locking mechanism and keys provides additional security from tampering. The lock is easily installed in the AE010 housing cover.

FEATURES

Sturdy, attractive housing

- NEMA 4 level protection...weather-proofing and durability (AE010)
- Key lock...discourages unwanted tampering (AE011)
- Filler strip included...fill in unsightly gaps for a pleasing look
